

IDENTIFIED BUGS

ISSUE	DESCRIPTION	PLATFORM	IMAGE/VIDEO	SUGGESTION
Password Reset Logout	When one changes their password, it only logs out the user on the particular device used to change the password. The other devices a user might have logged in to their account still remain logged in.	Desktop, Android, Mobile, IOS,		When a user changes password, it should logout all devices a user has used to log into his account.
Swipe Down Refresh in Android	The pull down request on app version 6.1.3 is no longer available. This feature was good for customers especially in areas where the internet speed is not high.	Android	Attached	Return the feature since it is useful where there is slow internet speeds
Disappearing Shortcut Menu when Virtuals and BSL are clicked	When the virtual and BSL tab is clicked, the shortcut menu on the above platforms disappears. This creates a difficulty in navigation.	Android, Mobile, Desktop, IOS	Attached	For easy navigation, the shortcut menu should remain even when BSL and Virtual games are in play.

Partially Hidden Items on Shortcut Menu	The shortcut menu is partially hidden on bigger mobile screens which creates a bad user experience as one has to strain to properly view the menu.	Android		For easy visibility of shortcut menu items, the items should be centered.
BSL Unavailability on IOS	The BSL feed on the IOS app is not available with the error of 'Betika Super League Unavailable'. This has locked out BSL customers on the IOS platform.	IOS		IOS customers are locked out of playing BSL because of this.
